

Siqing Li

21 YO | Southern University of Science and Technology

Shenzhen, China | siqinglee04@gmail.com | ellalee.me

Education

B.Sc. in Statistics (Data Science) Southern University of Science and Technology	Sep 2022 – Present Shenzhen, China
• GPA: 3.77/4.0 (3.85 in Last Semester), Weighted Avg: 94.5/100 • Core Courses: Advanced NLP, Statistical Learning, Bayesian Statistics, Big Data Analysis, Data Structure & Algorithm, Probability Theory, Mathematical Statistics, Distributed & Parallel Computing, Artificial Intelligence, Computer Programming Design (All Grade A) • Scholarship: Outstanding Student Model of the Year (Top 1%) • Leadership: President of SUSTech Red Cross, College Student Representative, Choir Section Leader	
Visiting Student , Zhejiang University, School of Medicine	Jan 2025
Visiting Student (Remote), The Ohio State University	Summer 2025

Research Experience

Cloning Ourselves in Language: LLMs for Conversational Digital Twins	Jul 2025 – Present
• Developed framework for conversational digital twins using LLMs with advanced data preprocessing • Fine-tuned Qwen-32B/Llama3.3-70B achieving SOTA in personality simulation fidelity	
Modeling LLM Unlearning As Asymmetric Two-task Learning	Aug 2025 – Oct 2025
• Proposed SAGO framework for LLM unlearning, advancing Pareto frontier of forgetting/retention • Submitted to ACL 2026	
Bidirectional Time-Freq Pyramid Network for Robust EEG Classification	Dec 2024 – Aug 2025
• Proposed BiTE architecture achieving SOTA for cross-paradigm EEG classification (MI/SSVEP) • Accepted at IEEE BIBM 2025 (AR: 19.6%, Oral)	
Disentangling the Global Spread of Influenza A H7 Virus	Dec 2024 – May 2025
• Bayesian phylodynamic analysis of H7 virus transmission • In review at Nature Communications (Round 2)	
Multivariate Gaussian Representation Learning for Medical Action Evaluation	May 2024 – Mar 2025
• Developed Gaussian-based representation for spatiotemporal Fine-grained action analysis • Accepted at AAAI 2026	

Projects

(Ongoing) Specialized Medical LLM through Multimodal Fine-tuning with RAG	Sep 2025
• End-to-end development of LLM with Retrieval-Augmented Generation by curating extensive medical knowledge base, integrating textual and visual medical information for improved domain understanding.	
Fine-tuning Gemma2 on Chinese GPT-4 QA Dataset	Dec 2024
• Fine-tuned Gemma2 using LoRA and RAG for Chinese QA tasks, Report on Kaggle	
Scalable Capital Flow Analytics System	Feb 2024
• MapReduce framework processing 4M+ financial transactions, Technical Report	
Momentum Modeling in Tennis Matches	Jan 2024
• Combinatorial optimization and ML for player performance analysis, Model Report	
See personal webpage for details.	

Awards & Honors

- **First Prize Scholarship** (Top 3%) 2025
- **Outstanding Student Model of the Year** (Top 1%) 2025
- **Second Prize Scholarship** (Top 8%, twice) 2025
- **China Math Modeling Contest** - Provincial First Prize, National Prize Mention 2024
- **Int'l Math Modeling Contest** - Honorable Mention 2024
- **Guangdong Seedling Plan Grant for Key Research Cultivation** - CNY 20,000 (Leader) 2024-25
- **China Int'l College Students Innovation Competition** - Provincial Gold Award (Leader) 2025
- **Top Ten Campus Volunteers** 2024
- **University Arts Festival Choir** - First Place 2024

Skills & Certifications

- **Technical:** Python, R, MATLAB, C++, PyTorch, TensorFlow, SQL, Hadoop, Spark
- **Academic:** LaTeX, Adobe Illustrator, Zotero, Tableau
- **Certifications:** AHA HeartSaver®, Red Cross Instructor, Violin Grade 9

Voluntary Experience

- **SUSTech Red Cross** (President)
 - Organized 30+ first aid and emergency response trainings as instructor
 - Managed 428.5 volunteer service hours
- **Campus First Aid Responder**
 - Handled 50+ medical emergencies (epilepsy, fractures, trauma, etc.)
